

Research Workshop

Institution:	Joint component
Year:	Year 2
Course type:	Core program component: research component
ECTS:	3

Brief description (including learning outcomes):

The research workshop aims to support the development of the thesis through academic and peer support. In participating in the research workshop, students will have the opportunity to receive important developmental feedback on their planned thesis; and in turn will be able to critically engage with, and support, the work of their peers.

The research workshop is intended to be developmental and therefore will be marked on a pass/resubmit basis only, with students receiving a pass by presenting in the workshop.

Students will receive oral feedback from their thesis supervisor, workshop convenor and peers, and written feedback from their supervisor of UoY/IBEI afterwards.

By completing the research workshop, students will:

- Be able to synthesis and respond to critical feedback.
- Be able to critically appraise the work of their peers.
